Sale Information

BREEDPLAN

We consistently collect and submit performance data to BREEDPLAN, and have a 4-star Herd Completeness of Performance rating. Traits listed in each animal's EBV table are used by BREEDPLAN to calculate Estimated Breeding Values.

SALE CONDITIONS

All animals will be offered for sale by private treaty, and will be sold on a first come, first served basis. Pricing will be done at our discretion, and we reserve the right to refuse sale to any person, for any reason prior to a final payment being made.

SETTLEMENT TERMS

Payment is to be made in full within 7 days of the invoice date unless a prior agreement has been made and stated on the invoice. If payment is not made within 7 days, the bull and/or heifer will not be held, and will be made available to other prospective buyers.

GST

All animals are sold exclusive of Goods and Services Tax (GST) – if a bull is sold for \$5,000 you will be charged \$5500

INSPECTION

On-farm inspections are welcome by appointment. To arrange an inspection please contact Phil on 0427311603.

REGISTRATION & TRANSFERS

All animals on offer are registered with Speckle Park International (SPI). Stella Speckle Park will facilitate the transfer of ownership with SPI within 2 weeks of purchase. All cattle have NLIS buttons and will be transferred to the buyers PIC upon leaving Stellar Speckle Park Stud.

ADVICE DISCLAIMER

We can offer guidance on animal selection to help buyers meet their herd goals, but the final choice is theirs. Buyers should inspect animals thoroughly before purchase and seek independent advice if needed.

INSURANCE

We strongly encourage buyers to insure their purchase as soon as practicable upon receipt of invoice. Full ownership, risk, and expense passes to the buyer upon payment of any or all part of the invoice.

If you wish to have your bull insured and require a veterinary certificate of health, please let us know prior to collection so that this can be arranged.

TRANSPORT

It is the purchasers responsibility to organise and pay for transport, Stellar Speckle Park can help to facilitate pick up or delivery of the stock as soon as possible after purchase. In the event that the cattle are not picked up within 7 days of purchase, a feeding charge may be incurred.

GUARANTEE

Every bull is guaranteed to be a breeder at the time of purchase and fertile for 6 months from the date of invoice. If a bull should prove to be infertile, or unable to serve cows naturally (provided it is not caused by injury, or disease contracted after sale), the vendor will either:

- a) Provide a satisfactory replacement, or
- b) Provide a cash refund on the purchase price, less the salvage value and excluding any expenses or interest incurred by the buyer.

It is the responsibility of the buyer to provide a veterinary certificate from a registered veterinarian within the 6 month period of the guarantee to verify the bull is infertile, and that it is not the result of injury, illness, or misadventure sustained after the date of purchase.

Docility

All Stellar calves are scored for Docility at weaning using the crush test (the calves are put up a race and individually held in the crush for about 30 seconds).

Score	Code	Description
1	Docile	Mild disposition, gentle and easily handled, stands and moves slowly during handling, undisturbed, settled, somewhat dull, exits crush calmly.
2	Restless	Quieter than average but slightly restless, may be stubborn during handling, may try to back out of crush, some flicking of tail, exits crush promptly.
3	Nervous	Manageable but nervous and impatient, a moderate amount of struggling, movement and tail flicking, exits crush briskly.
4	Flighty	Jumpy and out of control, quivers and struggles violently, may bellow and froth at mouth, continuous tail flicking, defecates and urinates during handling, frantically runs the fenceline and may jump when penned individually, exhibits long flight distance and exits crush wildly.
5	Aggressive	May be similar to score 4 but with added aggressive behaviour, fearful, extreme agitation, continuous movement which may include jumping and bellowing while in crush, exits crush frantically and may exhibit attack behaviour when handled alone.

Source BREEDPLAN Recording Docility Scores

Genetic Profile

All animals on offer are registered with Speckle Park International and have a 50K SNP Profile, are parent verified, and pedigree assured; individual Myostatin, Poll, Coat Colour, Leptin and Bovine Viral Diarrhoea Virus results are included on the individual profiles for each animal.

Category	Code	Coat Colour
Coat Colour	ED/ED	Animal carries two dominant black genes.
	RGC	Animal carries one dominant black gene, and one recessive red gene.
Poll/Horn	PcPc	Homozygous Polled. Animal carries no horn gene.
	HPc	Heterozygous Polled. Animal carries one copy of the horn gene.
Myostatin	Free	Free of the NT821 Myostatin gene.
	Carrier	Carrier of one copy of the NT821 Myostatin gene.
Leptins/ Tenderness		Animals will be represented as C/C, C/T or T/T (higher fat/tenderness).
BVDV	Negative	DNA tested as negative for Persistent Infection (PI) of Bovine Viral Diarrhoea Virus .

Tenderness Index

As part of the genetic profile of our cattle we collect data on the molecular marker status at three major locations (Calpain316, Calpain4751, and Calpastatin) in the bovine genome known to have an impact on meat tenderness. To assist in the interpretation of the results, the three markers are combined into an overall Tenderness Score, rated on a scale of 1 (Tough) to 10 (Tender).

Selection Indexes

Selection indexes provide an overall indication of an animal's genetic value for profit in a specific production system/target market and are calculated based on weightings placed on individual traits that are deemed to be important for that production system.

Index	Description
Domestic Maternal	Estimates the genetic differences between animals in net profitability per cow joined for a self-replacing commercial herd that is targeting the Supermarket trade.
Domestic Terminal	Estimates the genetic differences between animals in net profitability per cow joined in a typical commercial herd where all progeny are marketed.
Export Maternal	Estimates the genetic differences between animals in net profitability per cow joined for a self-replacing commercial <i>bos indicus</i> herd that uses Speckle Park bulls to target the export market.
Export Terminal	Estimates the genetic differences between animals in net profitability per cow joined in a typical commercial <i>bos indicus</i> herd that uses Speckle Park bulls and markets all progeny.

Which Speckle Park Selection Index should you use?

Retaining replacement Heifers?	Target Sale Age	Recommended Index
Yes	15 months	Domestic Maternal
Yes	24 months	Export Maternal
No	18 months	Domestic Terminal
No	24 months	Export Terminal

Stellar Unbeatable (GIC U07)

A great heifer bull – easy calving, good temperament, strong carcass traits

SIRE: SPOTS 'N SPROUTS DRONE (White)
DAM: WATTLE GROVE MONIQUE (Speckled)

DOB 14/11/23
Docility 1
Tenderness Index 7

Unbeatable is in the top 15% for the breed for low birthweights and the top 25% for IMF. He has a docility score of 1 and is an easy and quiet bull to work with. Additionally, his genetic profile includes being T/T for Leptin, which is linked to higher rates of fat accumulation, leading to increased weaning weight, body condition, and better marbling. This in combination with his meat tenderness index of 7 makes Unbeatable an ideal bull for crossing programs looking for easy calving and premium carcass characteristics including for dairy crosses.

Stellar Unmatched (GIC U08)

The complete package to lift performance - sound growth, carcass attributes, and temperament

SIRE: COLGAN'S GENERAL (Speckled)

DAM: THREE WAY SHE'S A WOMAN (Speckled)

DOB 19/11/23
Docility 1
Tenderness Index 10

Unmatched is a standout bull, combining impressive growth, carcass quality, and calm temperament. His EBVs place him in the top 15% of the breed for 200-day weights, top 25% for 400-day weights, and top 40% for 600-day weights, making him ideal for breeders targeting rapid growth. He also excels in carcass traits, ranking in the top 20% for both rib and rump fats, and the top 25% for Eye Muscle Area and Intramuscular Fat. These impressive traits are reflected in his strong Selection Index Values. With a tenderness index of 10, Unmatched promises superior meat quality and eating experience. His docility score of 1 means he's easy to manage, making him a valuable choice for breeding programs that prioritise both productivity and ease of handling.

Stellar Valiant (GIC V02)

Powerful growth, high fertility and great marbling.

SIRE: STELLAR TOUCH OF ICE (White)

DAM: THREE WAY SPIRIT IN THE DARK (Black)

DOB 8/2/24
Docility 1
Tenderness Index 4

Valiant is an outstanding young bull, displaying exceptional balance in both physical structure and temperament. He stands out for his impressive growth rates, with EBVs for 200-day weight ranking in the top 35% of the breed, 400-day weights in the top 30%, and 600-day weights in the top 25%. Additionally, Valiant excels in reproductive and carcase traits, with Scrotal Size EBVs in the top 30% and Intramuscular Fat (IMF) in the in the top 25%. His Export Terminal Index is also highly competitive, placing him in the top 30% of the breed.

Stellar Upperclass (GIC U05)

A perfect heifer bull with low birth weights and great carcass characteristics

SIRE: SPOTS 'N SPROUTS DRONE (White)

DAM: STELLAR SONGBELL (Black)

DOB 12/11/23
Docility 1
Tenderness Index 6

Upperclass is a moderately framed bull, with EBVs which place him in the top 15% of the breed for low birth weights and top 25% for reduced gestation length. These attributes make him an excellent choice for heifer matings and crossing programmes, including dairy crosses, where ease of calving is paramount.

Beyond his calving advantages, Upperclass ranks in the top 5% for rib fat and top 6% for rump fat—highlighting his superior fat distribution—while also achieving a position in the top 15% for Intramuscular Fat (IMF). This combination ensures progeny with not only minimal calving challenges but also exceptional carcass traits, making Upperclass a sound selection for breeders seeking calving ease and meat quality in their herd.

Stellar Uilleann (GIC U04)

Versatile bull offering high fertility, quite temperament and exceptional genetic potential for marbling and meat tenderness

SIRE: INC GOLIATH (Leopard)
DAM: SIX STAR THERESA (Speckled)

Uilleann ranks in the top 20% for fertility (scrotal circumference) and the top 20% for intramuscular fat (IMF) among Speckle Park stud animals. His genetic profile is T/T for Leptin, associated with higher fat accumulation, increased weaning weight, better body condition, and improved marbling. With a tenderness index of 9, he is ideal for enhancing carcass traits in cross-breeding programs. He has a docility score of 1, making him a quiet and easy bull to handle.

Stellar Upbeat (GIC U02)

Premium meat bull with a quiet and calm nature

SIRE: SPOTS 'N SPROUTS DRONE (White)
DAM: WATTLE GROVE MONIQUE (Speckled)

DOB 10/11/23
Docility 1
Tenderness Index 5

A well-structured bull with solid carcass qualities, Upbeat boasts IMF in the breed's top 20% and birth weights in the lowest 45%. He has an excellent temperament, reflected in a docility score of 1. His T/T Leptin genotype promotes higher fat accumulation, supporting increased weaning weights, superior body condition, and enhanced marbling. Upbeat is an ideal choice for crossing with heifers, delivering low-birth weight progeny and injecting strong carcass traits—especially marbling—into your herd.
